

G6

66T Panel Series

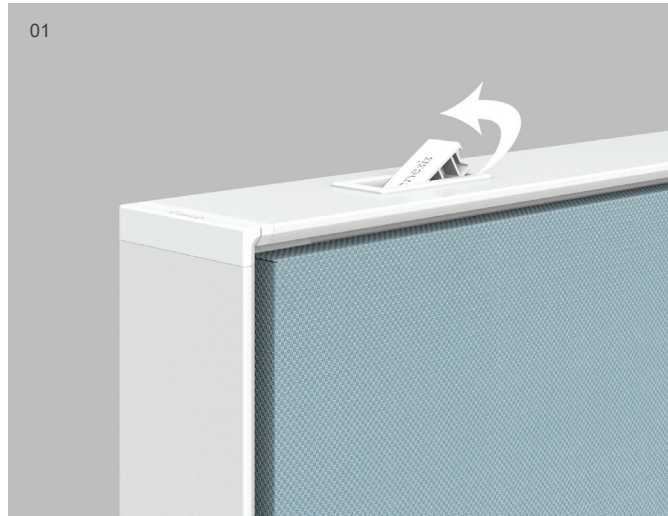

Creative office environment

The G6 66T panel series allows the configuration of workstations tailored to the work characteristics or the structure of office space with varied module combinations. Make your own creative workspace with simple finish design and diverse panel color combinations.

Feature

Design

01. Neat design

It is modern design where the top cover meets the end cover are naturally connected.

02. Swing Type Holder

The mounted Swing Type Holder inside the Top cover makes to install the screen firmly. In case of the Swing Type holder is not used, it can be hidden inside the top cover, which reduces the risk of loss.

03. Optimal 66mm Thickness

Designed with the optimal thickness of 66mm that ensures stable structure and sufficient wire function.

04. Combination of various colors

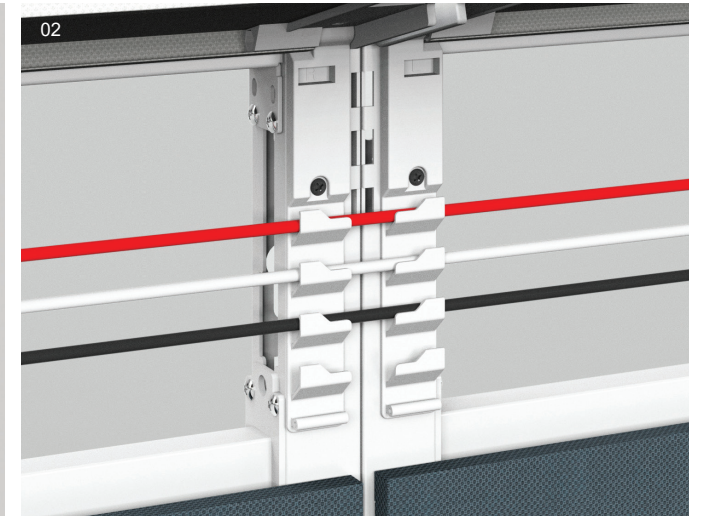

The combination of various colors for fabric tiles and trim creates a stylish office space.

Wire Management

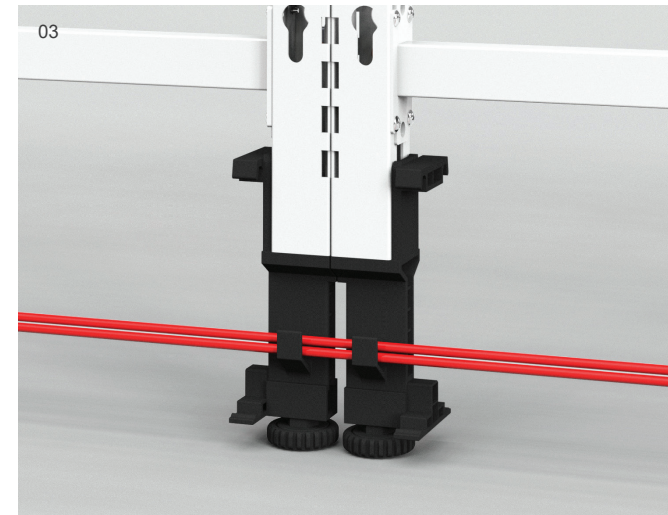

01. Swing Type Belt Tile

The damper hinge provides a smooth opening and closing and a 120 degree opening angle for easy wire management.

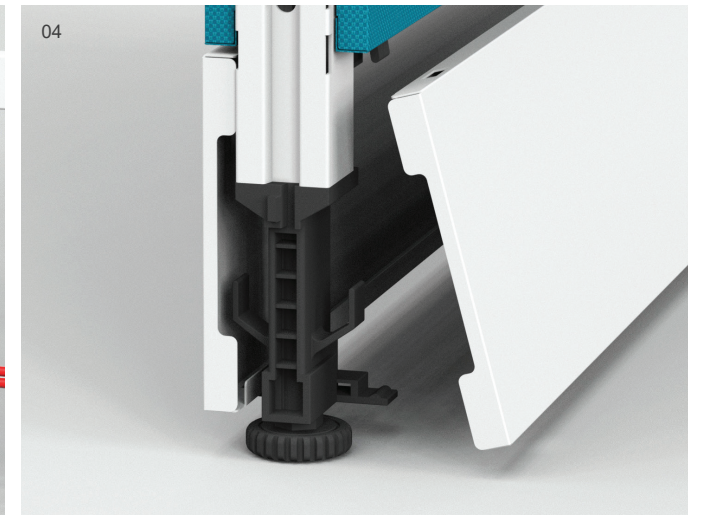

02. Wiring Guide in Belt Line

The Wiring Guide located in the Belt Tile provides easy and simple wire management.

03. Lower Horizontal Wiring Guide

The wiring guide located at the bottom enables more stable wiring management.

04. Simple designed base cover

Wiring processing is possible with a minimal design that allows for free assembly direction without extra cap.

Detail

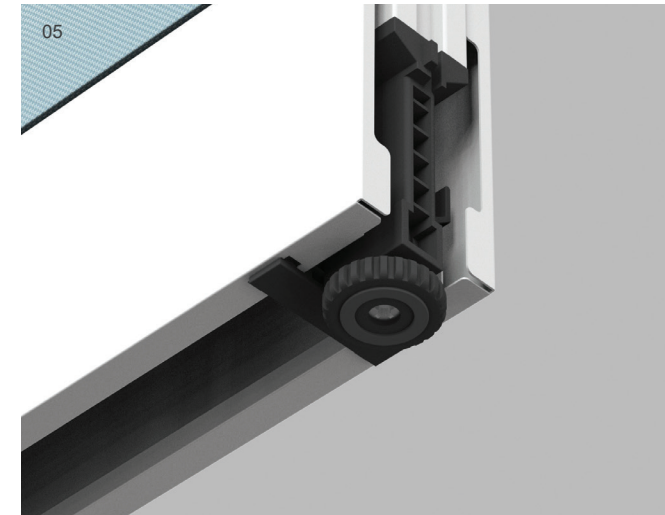

01. Accessory Bar

The accessory bar can be mounted at your preferred height with easy storage tools and holders.

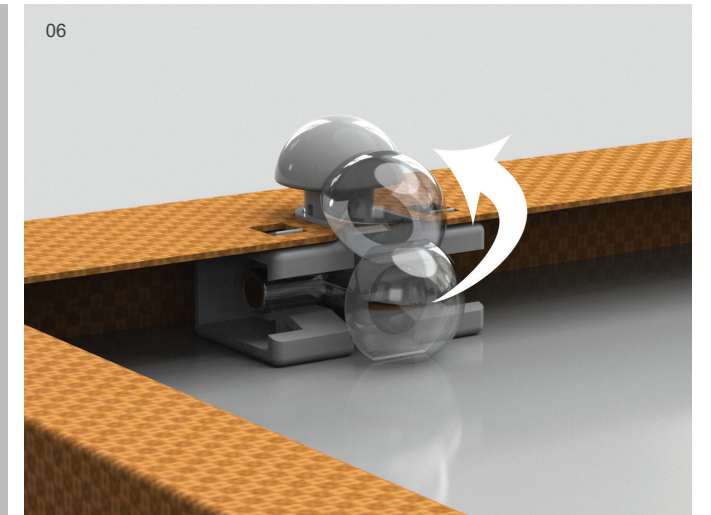

02. Open Shelves and Overhead Storage Bins

The Open Shelves and Overhead Storage Bins are assembled in a hanging type. It is convenient for storing books and documents.

05. Height-adjustable Foot

The height-adjustable foot keeps the panel level stable when the floor level is uneven, and bottom surface of the height-adjustable foot is made of rubber to prevent the panel from slipping.

06. Swing Type Tile button

The Swing Type tile button reduce assembly and disassemble time, and minimize volume by allowing multiple sheets to be stacked and moved during relocation.

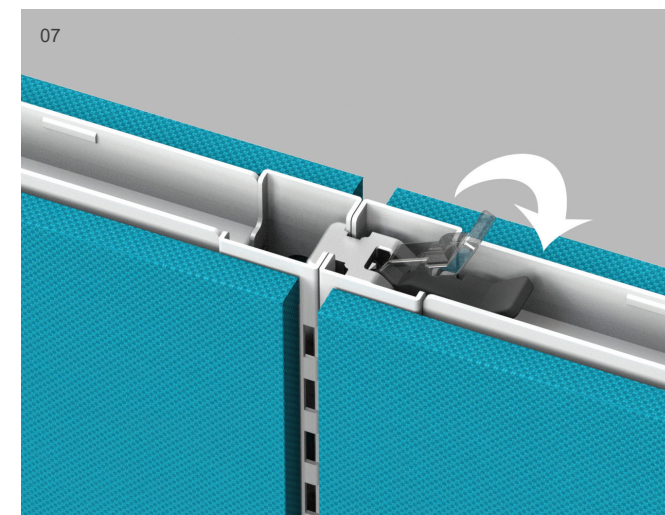

03. Stackable Panel

Stackable panel system can be applied to extend the panel height when needed to protect workspace changes and personal privacy.

04. Easy-to-connect End Cover

Built in a HOOK-style assembly structure, it can be assembled stably without extra tools.

07. Clamp fastening type

it is possible to fasten with only one clamp without tools when connecting frame to frame, and it improves work efficiency when assembly and disassembly.
